## AG2 Graffiti remover

By Hydron Protective Coatings Ltd

### Detailed description

Hydron AG2 is an effective low-odour, liquid formulation, designed for the removal of all types of graffiti from plastics and other sensitive surfaces. AG 2 will not 'haze' polycarbonate sheeting.

The remover contains no CFC's and full Health and Safety information is clearly displayed.

#### Application:

Application is simple, without the need for specialised equipment. Residue is washed away with clean water.

Spray affected area and wipe away with a soft cloth. On uneven surfaces or to remove stubborn graffiti use a soft bristled brush to agitate. Neutralise by rinsing with water.

### Product specification

#### Manufacturer

- Name:	Hydron Protective Coatings Ltd
