

**Safety Data
Sheet For:**

**INTACHEM™
NEUTRAL
SOAP**

Description:

Provides high quality non-corrosive cleaning action on most surfaces

INTACHEM IS THE TRADE
MARK OF F&D BULK
SERVICES LTD

1. IDENTIFICATION OF SUBSTANCES, PREPARATIONS AND COMPANY:

Name of Preparation: Neutral Soap
Supplier: IntaChem, 1 Irwin Drive, Nottingham NG6 7BJ
Distributor: Remmers (see contact details below, left)

2. COMPOSITION/INFORMATION ON INGREDIENTS:

Composition: The level of irritant ingredient is below the level necessary to classify preparation as Irritant under UK CHIP Regulations

Contains: (1) Non-ionic Detergents. Irritant 10-25%

3. HAZARDS IDENTIFICATION:

This product is not classified as hazardous per UK CHIP regulations or UN, ADR etc for transport. No ecological hazard when diluted.

4. FIRST AID MEASURES:

SKIN: Wash off with clean water
EYES: Irrigate thoroughly with water for 15 minutes ensuring water bathes the eyeball. Seek medical advice, alternatively use diluted boric acid solution
INGESTION: Rinse out mouth and throat frequently with water. Do not give emetics. Drink water. Seek medical advice.
INHALATION: Not volatile. Treat as for ingestion.

5. FIRE FIGHTING PROCEDURES:

Non flammable

6. ACCIDENTAL RELEASE MEASURES:

Hose away spillages to foul sewer or absorb with sand or soil. This product is fully bio-degradable.

7. HANDLING & STORAGE:

Store in labelled containers. Protect from freezing. Wear suitable gloves to prevent skin defatting.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION:

The use of PVC protective gloves is recommended and eye/face protection when spraying. Since the product is not classified as irritant or harmful, respiratory protection or other protective equipment not required.

9. PHYSICAL & CHEMICAL PROPERTIES:

Appearance: Pale liquid
pH: Neutral 7.0 (or as local water supply)
Boiling Point: 100 degrees Celsius
Freezing Point: 0 degrees Celsius
Specific Gravity: 1.0

10. STABILITY & REACTIVITY:

Product is suitable for all working temperatures. Do not mix with strong oxidising agents.

11. TOXICOLOGICAL INFORMATION:

Product is not classified as hazardous.

12. ECOLOGICAL INFORMATION:

This product provides no ecological hazards as all detergents are full bio-degradable and experience has shown that wash water has not harmed fish when diluted and washed away using the volumes of water recommended in the product data sheet.

13. DISPOSAL CONSIDERATIONS:

Dispose to foul sewer with water.

14. TRANSPORT INFORMATION:

Not classified as hazardous.

15. REGULATORY INFORMATION:

Not classified under CHIP.

As the preparation is not classified as hazardous, a COSHH assessment is not required.

16. OTHER INFORMATION:

This product does not represent any significant hazard in use. Use diluted with water for cleaning PVC, plastics, glass, polished masonry, ceramics, vinyl tiles and vehicles.

Complies with the demands of UK Aluminium Federation and British Steel for the cleaning of aluminium and plastic coated exterior building cladding.

Important Notice:

The statements above are compiled from our field of production and according to the latest technological developments and application techniques received by us. Since application and working are beyond our control, no liability of the producer (or its agents) can be derived from contents of the information sheet or additional correspondence. All statements made in addition to this sheet must be confirmed in writing by the producer (or its agents). In all cases our general conditions of sale are valid. This data sheet was published 16/05/2006 and supersedes any previous edition.
