# Safety data sheet

# according to 1907/2006/EC, Article 31

Printing date 27.02.2024 Version number 10 (replaces version 9) Revision: 27.02.2024

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

# Trade name Sealing Primer

Article number: 3440

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

No further relevant information available.

Application of the substance / the mixture Priming

# 1.3 Details of the supplier of the safety data sheet

Manufacturer/Supplier:

Remmers GmbH Remmers (UK) Limited Bernhard-Remmers-Str. 13 Unit 4, Lloyds Court

D-49624 Löningen / Germany Manor Royal, Crawley - West Sussex RH10 9QU Tel.: +49(0)5432/83-0

fon +44 (0) 1293 594 010 fax +44 (0) 1293 594 037

Fax: +49(0)5432/3985 Information department:

Product Safety department: Phone: +44 (0) 1293 594 010

Email: sales@remmers.co.ukk

1.4 Emergency telephone number:

National Poisons Information Service (NPIS): In England and Wales: NHS 111 - dial 111

In Scotland: NHS 24 - dial 111

24h-Transport Emergency Contact Phone Number:

within USA and Canada: 1-800-424-9300 outside USA and Canada: 001-703-527-3887

## SECTION 2: Hazards identification

### 2.1 Classification of the substance or mixture

# Classification according to Regulation (EC) No 1272/2008

The product is not classified, according to the GB CLP regulation.

### 2.2 Label elements

Labelling according to Regulation (EC) No 1272/2008 Void

Hazard pictograms Void

Signal word Void

Hazard statements Void

### Additional information:

EUH208 Contains 1,2-benzisothiazol-3(2H)-one, reaction mass of 5-chloro-2- methyl-2H-isothiazol-3one and 2-methyl-2H-isothiazol-3- one (3:1). May produce an allergic reaction.

EUH211 Warning! Hazardous respirable droplets may be formed when sprayed. Do not breathe spray or mist.

### 2.3 Other hazards

## Results of PBT and vPvB assessment

PBT: Not applicable. vPvB: Not applicable.

**Determination of endocrine-disrupting properties** Not applicable.

# SECTION 3: Composition/information on ingredients

#### 3.2 Mixtures

**Description:** Mixture of the substances listed below with harmless additions.

(Contd. on page 2)

Printing date 27.02.2024 Version number 10 (replaces version 9) Revision: 27.02.2024

# Trade name Sealing Primer

Additional information For the wording of the listed hazard phrases refer to section 16.

# SECTION 4: First aid measures

# 4.1 Description of first aid measures

## **General information**

If symptoms occur or in case of doubt, seek medical attention. In case of unconsciousness, do not administer anything orally.

After inhalation Seek medical treatment in case of complaints.

After skin contact If skin irritation continues, consult a doctor.

After eye contact Rinse opened eye for several minutes under running water.

After swallowing Seek medical treatment.

# 4.2 Most important symptoms and effects, both acute and delayed

No further relevant information available.

## 4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available.

# **SECTION 5: Firefighting measures**

## 5.1 Extinguishing media

Suitable extinguishing agents Use fire fighting measures that suit the environment.

# 5.2 Special hazards arising from the substance or mixture

May be released in case of fire

Carbon monoxide (CO)

## 5.3 Advice for firefighters

Protective equipment: No special measures required.

## **Additional information**

Collect contaminated fire fighting water separately. It must not enter drains.

Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

(Contd. on page 3)

Printing date 27.02.2024 Version number 10 (replaces version 9)

Trade name Sealing Primer

(Contd. of page 2)

Revision: 27.02.2024

# **SECTION 6: Accidental release measures**

## 6.1 Personal precautions, protective equipment and emergency procedures

Particular danger of slipping on leaked/spilled product.

Ensure adequate ventilation

### 6.2 Environmental precautions:

Do not allow to enter the ground/soil.

Dilute with plenty of water.

### 6.3 Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

### 6.4 Reference to other sections

See Section 7 for information on safe handling

See Section 8 for information on personal protection equipment.

See Section 13 for information on disposal.

# SECTION 7: Handling and storage

## 7.1 Precautions for safe handling

No special measures required.

No special precautions necessary if used correctly.

# 7.2 Conditions for safe storage, including any incompatibilities

#### Storage

Requirements to be met by storerooms and containers: No special requirements.

Information on storage in a common storage facility: none

Further information about storage conditions: Protect from frost.

# **SECTION 8: Exposure controls/personal protection**

### 8.1 Control parameters

| Com  | Components with limit values that require monitoring at the workplace: |  |  |
|------|--|--|--|
| CAS: | 13463-67-7 titanium dioxide  |  |  |
| WEL  | Long-term value: 10* 4** mg/m³ *total inhalable **respirable           |  |  |
| CAS: | 7727-43-7 barium sulphate, natural                                     |  |  |
| WEL  | Long-term value: 10* 4** mg/m³ *inhalable dust **respirable dust       |  |  |

**Additional information:** The lists that were valid during compilation were used as a basis.

# 8.2 Exposure controls

**Appropriate engineering controls** No further data; see section 7.

# Individual protection measures, such as personal protective equipment

## General protective and hygienic measures

Do not eat, drink or smoke while working.

Use skin protection cream for preventive skin protection.

Wash hands before pauses and after work.

The following indication regarding the personal protective equipment are to be considered as suggestions. The selection of the necessary personal protective equipment is to be evalutated by the employer depending on the types of operations and the local circumstances. If a risk assessment onsite shows that there is no risk for employees, the personal protective euiqment is not required or the amount of the PPE can be adpated accordingly.

# Respiratory equipment:

In case of insufficient ventilation/or spraying procedures: Respiratory equipment with particle filter P 2

# **Hand protection**

Protective gloves or protective skin cream.

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

### **Material of gloves**

Nitrile rubber, NBR

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to

(Contd. on page 4)

Printing date 27.02.2024 Version number 10 (replaces version 9) Revision: 27.02.2024

# Trade name Sealing Primer

(Contd. of page 3)

be checked prior to the application.

# Penetration time of glove material

The determined penetration times according to EN 16523-1:2015 are not performed under practical conditions. Therefore a maximum wearing time, which corresponds to 50% of the penetration time, is recommended.

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

**Eye/face protection** if there is a risk of splashes **Body protection:** Protective work clothing.

# \* SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

**General Information** 

Physical state Fluid
Colour: White
Odour: Type specific
Odour threshold: Not determined.
Melting point/freezing point: Not determined

Boiling point or initial boiling point and boiling

range 100 °C

**Flammability** Not applicable.

Lower and upper explosion limit

Lower:Not determined.Upper:Not determined.Flash point:Not applicableAuto-ignition temperature:not applicableDecomposition temperature:Not determined.

**pH at 20 °C** 8 - 9

Viscosity:

**Kinematic viscosity dynamic at 20 °C:**Not determined.
1500 - 2000 mPas

Solubility

Water: Fully miscible
Partition coefficient n-octanol/water (log value) Not determined.
Vapour pressure: Not determined.

Density and/or relative density

Density at 20 °C:ca. 1.3 g/cm3Relative densityNot determined.Vapour densityNot determined.

9.2 Other information

Appearance:

Form: Fluid

Important information on protection of health

and environment, and on safety.

**Explosive properties:** Product is not explosive.

 $\begin{array}{ll} \mbox{Solvent separation test} & < 3 \ \% \\ \mbox{Organic solvents:} & < 30 \ \mbox{g/l} \end{array}$ 

Change in condition

**Evaporation rate** Not determined.

# **SECTION 10: Stability and reactivity**

- 10.1 Reactivity No further relevant information available.
- 10.2 Chemical stability

### Thermal decomposition / conditions to be avoided:

No decomposition if handled and stored according to specifications.

- 10.3 Possibility of hazardous reactions No dangerous reactions known
- 10.4 Conditions to avoid No further relevant information available.
- **10.5 Incompatible materials:** No further relevant information available.
- 10.6 Hazardous decomposition products: No dangerous decomposition products known

# SECTION 11: Toxicological information

# 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity: Based on available data, the classification criteria are not met.

LD/LC50 values that are relevant for classification: No further relevant information available.

Skin corrosion/irritation: Based on available data, the classification criteria are not met.

Serious eye damage/irritation: Based on available data, the classification criteria are not met.

**Sensitisation:** Based on available data, the classification criteria are not met.

Germ cell mutagenicity: Based on available data, the classification criteria are not met.

Carcinogenicity: Based on available data, the classification criteria are not met.

**Reproductive toxicity:** Based on available data, the classification criteria are not met. **STOT-single exposure:** Based on available data, the classification criteria are not met.

STOT-repeated exposure: Based on available data, the classification criteria are not met.

Aspiration hazard: Based on available data, the classification criteria are not met.

11.2 Information on other hazards

### **Endocrine disrupting properties**

None of the ingredients is listed.

# \* SECTION 12: Ecological information

### 12.1 Toxicity

Aquatic toxicity: No further relevant information available.

- **12.2 Persistence and degradability** No further relevant information available.
- 12.3 Bioaccumulative potential No further relevant information available.
- **12.4 Mobility in soil** No further relevant information available.
- 12.5 Results of PBT and vPvB assessment

**PBT:** Not applicable.

vPvB: Not applicable.

### 12.6 Endocrine disrupting properties

The product does not contain substances with endocrine disrupting properties.

**12.7 Other adverse effects** No further relevant information available.

### Additional ecological information:

#### **General notes:**

Do not allow product to reach ground water, bodies of water or sewage system.

Do not allow undiluted or larger quantities of the product to reach ground water, bodies fo water or sewage system.

(Contd. on page 6)

Printing date 27.02.2024 Version number 10 (replaces version 9) Revision: 27.02.2024

# Trade name Sealing Primer

(Contd. of page 5)

# **SECTION 13: Disposal considerations**

#### Recommendation

Not hardened material must be disposed of as hazardous waste according to official regulations. Hardened product remains may be disposed of as building rubble or put into household garbage. The given refuse codes are recommendations based upon the intended use of the product. Because of special use and disposal conditions at the user's, other codes may apply under other conditions.

# European waste catalogue

08 01 20 aqueous suspensions containing paint or varnish other than those mentioned in 08 01 19

## Uncleaned packaging:

### Recommendation:

Disposal must be made according to official regulations.

Packaging can be reused or recycled after cleaning.

Recommended cleaning agent: Water, if necessary with cleaning agent.

# **SECTION 14: Transport information**

| 14.1 UN number or ID number<br>ADR, ADN, IMDG, IATA                          | Void   |

### Directive 2012/18/EU

Named dangerous substances - ANNEX I None of the ingredients is listed.

DIRECTIVE 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment - Annex II

None of the ingredients is listed.

## **REGULATION (EU) 2019/1148**

# Annex I - RESTRICTED EXPLOSIVES PRECURSORS (Upper limit value for the purpose of licensing under Article 5(3))

None of the ingredients is listed.

## **Annex II - REPORTABLE EXPLOSIVES PRECURSORS**

None of the ingredients is listed.

#### National regulations

#### Other regulations, limitations and prohibition ordinances

Also when working with low-pollutant varnishes, the usual protective measures should be observed.

15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

## **SECTION 16: Other information**

This data is based on our present state of knowledge. However, it does not constitute a guarantee for any specific product features and does not establish a legally valid contractual relationship. Delivery specifications are found in the respective Technical Information Sheets.

### Relevant phrases

| H301 | Toxic if swallowed.   |
|------|-----------------------|
| H302 | Harmful if swallowed. |
|      |                       |

H304 May be fatal if swallowed and enters airways.

H310 Fatal in contact with skin.

H314 Causes severe skin burns and eye damage.

H315 Causes skin irritation.

May cause an allergic skin reaction. H317

H318 Causes serious eye damage.

H319 Causes serious eve irritation.

H330 Fatal if inhaled.

H400 Very toxic to aquatic life.

H410 Very toxic to aquatic life with long lasting effects.

EUH071 Corrosive to the respiratory tract.

### Classification according to Regulation (EC) No 1272/2008 Calculation method

Department issuing data specification sheet: Product Safety department / EHS

Version number of previous version: 9

### Abbreviations and acronyms:

ADR: Accord relatif au transport international des marchandises dangereuses par route (European Agreement Concerning the International Carriage of Dangerous Goods by Road)
